### Notes from the teacher:

As part of the New Brunswick Curriculum, we will be studying Personal Health and Safety. This includes personal space, personal hygiene and how to be safe. It is a very important issue, so please follow up with your child at home.

### What We are learning this month:

Reading	Writing	Math	Social studies
○ Main Ideas	○ Beginning and Middle	○ Whole Numbers ○ Math Facts 0-10	○ The Nature of Exploration

### A Few Reminders:

When your child is **absent**, please send a dated, signed **note** explaining the reason.

Children must be signed in when arriving late and signed out when leaving early.

**Bussing:** Students are not permitted to travel on a bus other than that assigned without a bus pass, which requires a signed note from home and the permission of the District Transportation Manager.

Unless we have a **note**, students will be going to their regular place after school for safety reasons. Please send a note in the morning.

**Please sign your child's agenda and log every night. Please write any communication notes to me in the agenda.**

**Happy Halloween** 

Congratulations to those students who received a Harkins Treasure award this month. I am so proud of you Sasha and Sarah!

October  
**Sasha, Kaylee, Sam**
